

## **Job Description Installer I (Part-time Position)**

The Level I Installer is an individual who works with supervision to install wiring, cable, components, and devices for low-voltage electronics in residential applications (including home theater, audio, video, home automation, radio frequency, telephony, data networks and central vacuum). Tasks will include installing cable for new and pre-existing construction to be used in a variety of technology systems and sub-systems. Work will consist primarily of cable preparation, tracing, identification, labeling, termination, and testing of all structured wiring and components such as connectors, keypads, jacks, wall-plates, a/v equipment (e.g. home theater, distributed a/v), network equipment, phone equipment, and surveillance equipment. Most installations will include working with the client to determine ideal placement of termination points, including the mounting of relevant components.

### **Responsibilities**

- Build a customer relationship based on trust, dependability, timely responsiveness, and sensitivity to their business and personal needs
- Ability to apply common sense understanding to carry out instructions furnished in written, oral, or diagram form
- Must be able to read work orders and road maps, and accurately perform simple mathematical calculations
- Routing of telephone, data, audio and video cables during the rough-in phase of construction
- Termination of telephone, data, audio and video cables during the trim-out phase of construction
- Basic knowledge of audio/video signal flow
- Assist in the installation of audio and video components
- Complete and submit reports on a daily basis to document work-in-progress, completed work, invoices, payments, and other necessary tracking paperwork
- A sense of urgency for completing projects on time and doing quality work
- Be available to work 15-25 hours per week
- Other duties as assigned

### **Qualifications**

- High School education required. College degree or 2 year technical degree a plus
- 0-4 years experience working with multiple cabling technologies
- Valid driver's license required
- Reliable personal transportation (for local travel) required (Mileage reimbursement available)
- Must be able to lift and carry up to 70 lbs., use standard tools, and perform work in unusual and sometimes difficult positions (i.e. climb ladders, work in trusses, etc.)
- Must be able to work throughout the year in various weather conditions
- Knowledge of Microsoft Office and basic PC skills a plus
- Must have color vision and the ability to decipher wire color codes
- Ability to pass a standard background investigation and drug test

Position is currently a part-time (15-25 hours per week), but may turn into full-time in the future. Pay commiserate with experience. Email resume to: [jobs@coloradomediасystems.com](mailto:jobs@coloradomediасystems.com)
